- Unlimited data allowance
- NTT optical fiber installation for NTT to visit your residence and install the required infrastructure
- Automatic activation for high-speed IPv6 internet connection within 24 hours after the NTT installation is completed
- Digital home phone line with a regular area code number
- Free corded phone handset with onsite supports

Offer details

Customer must maintain a valid credit card and email address at all times.
SonixNet via NTT Optical Fiber is a high-speed internet service provided over NTT East Japan's public optical fiber broadband network, with an internet connection authenticated through JPNE's IPv6 IPoE.
Geographic restrictions apply. Contact Assist Solutions to see if you qualify.
Internet speed claims represent theoretical maximum capability over the NTT optical fiber network. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, and device capabilities.
Visit by NTT to activate the required infrastructure is mandatory.
Internet connection will not become immediately after the NTT installation is completed. The IPv6-IPoE authentication requires up to 24 hours after the NTT installation is completed. For customers in need of immediate access to the internet after the NTT installation is completed, Assist Solutions is able to provide in-home assistance (visiting fee incurs separately) to temporarily authenticate the internet connection through PPPoE. Once the IPv6-IPoE authentication is completed, the PPPoE settings will be automatically deleted from the NTT gateway router.
Illegal activity over the network, including P2P sharing of copyrighted data, is strictly prohibited. Abusers can be detected and prosecuted by the Japanese law.
Upon cancellation, Assist Solutions require a notice of at least 10 business days in advance to the date of removal. NTT devices are rental equipment and must be returned immediately after cancellation of subscription. Failure to return the rental hardware may result in a compensation penalty.
NTT line is not transferrable to other companies' services.

Build your own plan...

*Submit page 4 to Assist Solutions by email or fax to apply.
*All fees in this document do not include VAT (8%)

Technical In-home Assistance (onsite support) **15,000 JPY one-time**

Have an Assist Solutions professional tech staff visit your residence to help you with the total coordination of your home internet setup.

No need to wait for activation after the NTT installation is completed (manual activation via PPPoE – automatically switches over to IPv6-IPoE within 24 hours after NTT installation)

Receive a free corded phone handset to use the home phone line.

Additional device costs (if required) incur separately.

Netgear Nighthawk R6850 802.11ac Wi-Fi Router **13,500 JPY one-time**

Purchase a powerful wireless router to personalize your home Wi-Fi setup.

1733 (11n/ac) + 300 (11n/b/g) Dual Band Gigabit

Multi-language firmware / 3-year manufacturer warranty

NTT "Hikari Denwa" Home IP Phone **FREE**

A digital home phone line provided through the NTT optical fiber connection is included.

You will be assigned with a regular area code number. Number is assigned randomly.

(Tokyo: 03-XXXX-XXXX / Yokohama: 045-XXX-XXXX)

*Calling charges apply separately, and are billed around the 10th of the following month.

*Cannot call prefix 00- numbers (eg. special calling carriers, etc.)

*Phone device not included. Prepare your own, or purchase from Assist Solutions (Panasonic KX-TG4023N: set of 3).

Customers who request an Assist Solutions onsite support can receive a free corded phone handset.

*Service will not incur a fee if not in use.

SonixNet VPN Rental Router

See page 2 for details/prices

SonixNet VPN is a fast and secure OpenVPN system that connects you to major locations around the world.

Best suited for streaming online video contents from US, UK and Australia.

See page 2 for details.

SonixNet SIM via NTT Docomo 4G/LTE

See page 3 for details/prices

SonixNet borrows NTT Docomo's vast cellular network coverage and provides a customer-friendly MVNO SIM service for your SIM-free smartphones and mobile hotspots.

A compatible device is to be prepared by the user.

See page 3 for details.

SonixNet VPN Rental Router Service

Monthly Fee:

USA/Australia 2,500 JPY / month

*Select one from USA or Australia. Router is dedicated to one region only.

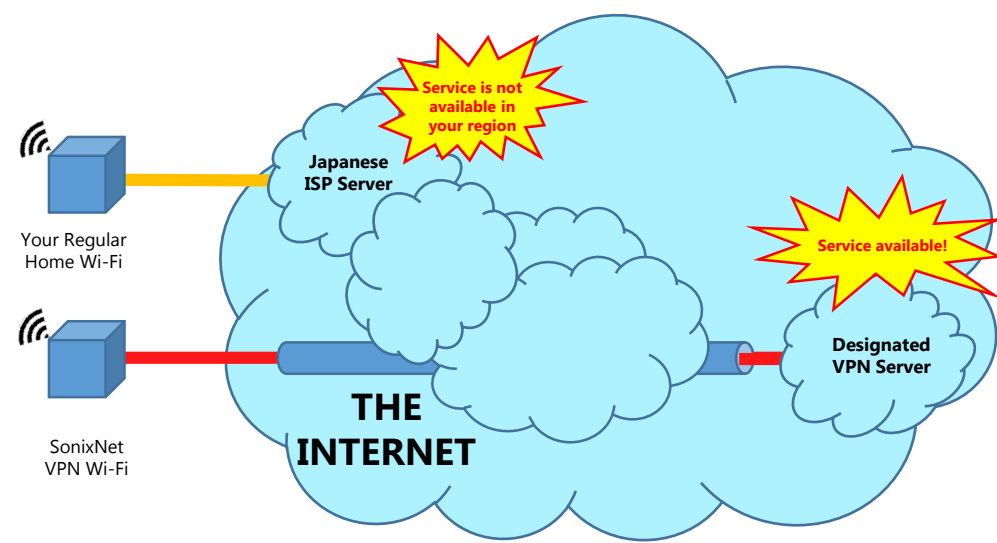

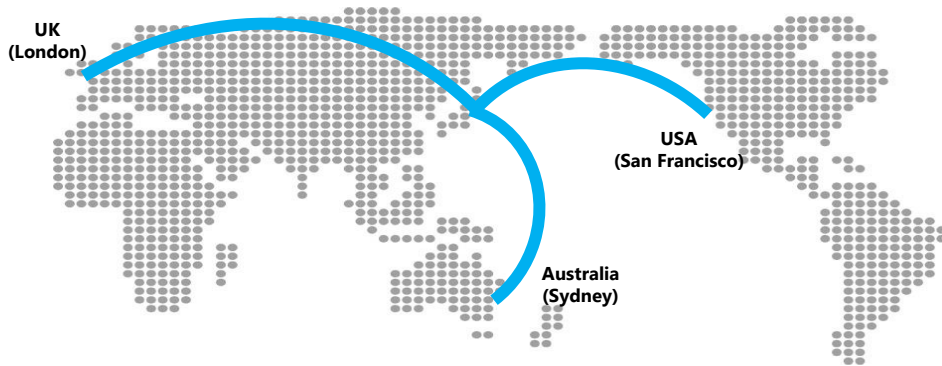

UK 3,500 JPY / month

*Activation month (day of sign-up to the end of the month) is FREE of the monthly fee. Regular billing starts from the following month, charged on the 1st of each month.
*Each router is dedicated to accessing one region only. Server locations are shown below. To have access to multiple regions, subscriptions to each designated router are required.

Activation Fee: 3,000 JPY (one-time)

*A one-time account activation fee applies per unit upon sign-up.

A virtual private network (VPN) is an internet network tunnel that provides direct and encrypted connection to the designated server. The VPN customizes your IP location information, enabling you to access contents that are available only in the US/UK/Australia.

SonixNet VPN is an internet service. Any subscriptions to online TV and video streaming services are not included and are to be done on the user's end.

Unlike other VPN services on the market, SonixNet VPN is configured directly into a rental Wi-Fi router. You can easily switch between your regular home Wi-Fi network and the VPN Wi-Fi network, depending on the contents you are browsing.

SonixNet VPN Rental Router Service is an internet service. TV subscriptions are not included. Such TV subscriptions and other additional services are to be managed by the applicant. Assist Solutions bear no responsibility over any issues related to the said services. Assist Solutions do not guarantee or bear any responsibility over the unblocking of any websites/services of the quality of the streaming/browsing. Illegal P2P activity over the SonixNet VPN connection is strictly prohibited. Abusers can be detected and prosecuted by the Japanese Law. After the first monthly fee is paid, there are no commitment terms or early cancellation penalties. Upon cancellation of the service, a request by email or phone is required at least 10 business days prior to the desired date of removal, and a completed cancellation form is due by the 25th of the month of cancellation. Monthly fee of the final month will not be prorated. The cancellation procedure is deemed completed when Assist Solutions receive the returned rental router. A failure to return the router and its accessories (AC adapter, other rental hardware) may result in a compensation penalty of up to 10,000 JPY / unit.

SonixNet VPN is a fast and secure Open VPN system that connects you to major locations around the world.

Data usage is unlimited. Best for streaming online video contents!

A configured VPN Wi-Fi router is provided for rental (no purchase required, no hidden fees). Connect your network media players to the VPN Wi-Fi to connect to our overseas server. SonixNet VPN is the easiest way to access video streaming services and other online content from overseas on media players such as an Apple TV, Roku, Amazon Fire, etc.

Technical support by phone / email / remote access is available by Assist Solutions.

SonixNet SIM via NTT Docomo 4G/LTE

For SIM-free smartphones and mobile hotspots

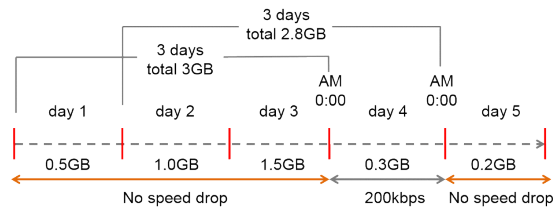

Nation-wide coverage

SonixNet SIM is an MVNO service operating on NTT Docomo's vast cellular network. You can benefit from the full coverage by NTT Docomo, which covers the largest area among the main three carriers in Japan (Softbank, Au). See NTT Docomo's website for a full coverage map.

Service is intended for use inside Japan only.

Plentiful data

The "Unmetered" data plan does not account your monthly data consumption. Only your data consumption of the past three days are recorded. At midnight every day, your 3-day data consumption is calculated. If the accumulated total of the data usage exceeds 3GB, your bandwidth will be deprioritized (limit to maximum 200kbps) for 24 hours until the next midnight when your data usage is calculated again.

For lightweight data users, we also have a metered (5GB/month) plan. If you run out of data on the metered plan, your bandwidth will be deprioritized (maximum 200kbps) until the next billing cycle (billing cycle = 1st to the end of the month). You can also purchase additional data (1,500 JPY / 1GB) which will be valid from the day of purchase to the end of the month.

No annual commitments

We require you to keep the service for a minimal of the first free month + **three billing months** (billing is on the 1st of each month). After the first three months are fulfilled, you are free to leave the service at any time. Request your cancellation online by the 25th of your cancellation month and the service will be terminated at the end of the billing cycle (billing cycle = 1st to the end of the month).

BYOD (Bring your own device)

Upon sign-up, please prepare your own smartphone/tablet or mobile hotspot device that is SIM-free, and compatible with NTT Docomo's cellular frequencies (4G/LTE, 3G/GSM). Incompatible devices may not function properly. For a list of tested devices that are available domestically, please see our website. Assist Solutions are not responsible for any issues caused due to incompatibility.

Monthly Fee

*Calling/SMS charges apply separately.

	5GB/month	Unmetered
Data Only	1,500 JPY	3,200 JPY
Data+SMS	1,700 JPY	3,400 JPY
Data+SMS/Voice	2,800 JPY (2,500JPY for 2nd contract!)	3,900 JPY (3,600JPY for 2nd contract!)

*Monthly fees are charged on the 1st of each month. Installation month (day of sign-up, to the end of the month) is free of this charge.

*Final month is FULL CHARGE (no prorating)

Account Activation Fee (per unit)

3,000 JPY (one-time)

Switching between plans also require a fee of 3,000 JPY.

Switching between data plans (5GB or Unmetered) can be done at any time (change takes effect from the next billing cycle).

Switching between voice plans (Data-only or Data+SMS or Data+SMS/Voice) require the SIM card to be replaced, therefore is considered as a cancellation of the existing subscription and application of a new plan. Cancellation policies apply.

SIM sizes are provided in NANO, MICRO, or STANDARD. Replacement requires a fee of 3,000 JPY.

Data+SMS numbers will not be retained when the SIM size is changed.

Sample Calling/SMS Rates

*For outgoing calls/SMS only. Incoming calls/SMS are free.

Domestic call	¥20/30sec	International call	varies (see website)
Domestic SMS	¥3/message	International SMS	¥100/message

Additional Options (For Voice SIMs)

Call Waiting

+300 JPY / month

Voice Mail

+300 JPY / month

Enable International Calling Ability

+0 JPY / month

This option gives you the ability to call international numbers from inside Japan (disabled by default).

Calling charges apply separately (eg. North America ¥34/30sec, Europe ¥108/30sec)

A limit of 20,000JPY / applies to the monthly international calling charges (upgrade available).

"Unlimited 15" Domestic Free Calling

+1,300 JPY / month

All calling/SMS fees are charged separately.

If you are a frequent domestic caller, we recommend our "Unlimited 15" option. This makes an unlimited number of domestic calls up to 15 minutes FREE, and discounts rates for minutes of domestic calls exceeding 15 minutes. For details on the discounted rates please see our website.

To be eligible for the free/discounted rates, all calls must be made by adding the prefix "0063" or through the "Freebit Otoku Call" smartphone app.

Only for this option, the base fee (1,300JPY) of the first month is prorated and charged upon activation.
