

# SONIXNET VPN RENTAL ROUTER SERVICE

※VAT (10%) not included

## What is SonixNet VPN?

SonixNet VPN is a fast and secure Open VPN system that connects you to major locations around the world.

Data usage is unlimited. Best for streaming online video contents!

A configured VPN Wi-Fi router is provided for rental (no purchase required and no hidden fees). Connect your network media players to the VPN Wi-Fi to connect to our overseas server. SonixNet VPN is the easiest way to access video streaming services and other online content from overseas on your Apple TV and Roku.

Technical support by phone / email / remote access is available by Assist Solutions.

## Notes

The activation month (day of sign-up to the end of the month) is FREE of the monthly fee. Regular billing starts on the 1st of the following month. A one-time activation fee (3,000 JPY / unit) applies separately. The SonixNet VPN Rental Router Service is an internet service. TV subscriptions are not included. Such TV subscriptions and other additional services are to be managed by the applicant, and Assist Solutions bears no responsibility over any issues related to the said services.

Assist Solutions does not guarantee or bear any responsibility over the unblocking of any websites or the quality of the streaming/browsing.

Illegal P2P activity over the SonixNet VPN connection is strictly prohibited. Abusers can be detected and prosecuted.

Each router is dedicated to accessing one region only. To have access to multiple regions, subscriptions to each designated router is required.

Upon cancellation of the service, a request by email or phone is required at least 10 business days prior to the desired date of removal, and a completed cancellation form is due by the 25th of the month of cancellation. Fee of the final month will not be prorated (full charge of the monthly fee). The cancellation procedure is completed when Assist Solutions receives the returned rental router. A failure to return the router and all of its accessories (AC adapter) can result in a compensation penalty of 10,000 JPY / unit.
